

Permaban Installation Methods

Specification Sheet
Issue 1.0
31/03/2025

AlphaFeet Method

Used by contractors who don't pour concrete or use our products daily. These are an extra cost and are not reusable. Requires pins and a hole in the dowel.

AlphaFix Method

Used by flooring contractors who pour concrete and use our products daily. These are an extra cost but are reusable. Requires pins.

Pin & Weld Method

Used by both specialist flooring contractors and general contractors. These are an extra cost and are not reusable. Requires pins.
